

## **EdTech Winter School 2024**

### **Learning, smart systems and digital transformation**

Tuesday 20 August  
Los Ceibos Building, LATU

The Ceibal Foundation presents the 8th edition of the Winter School on Education and Technology, organized with the support of the National Agency for Research and Innovation (ANII). The activity is aimed at disseminating the efforts of both organizations, together with Ceibal and the National Administration of Public Education (ANEP), for the construction and development of a research agenda that informs public policies in innovation, education and technology. The activity is part of the *Education Sector Fund: Digital Inclusion (FSED)*, developed jointly by the Foundation and ANII, and will focus on the intersection between the dimensions of learning, intelligent systems and digital transformation.

The event, which will take place on **20 August from 9am to 12.30pm (URU)**, is aimed at policy makers, researchers, academics and the educational community in general. It will feature leading experts, including **Stéphan Vincent-Lancrin**, Deputy Head of the Centre for Educational Research and Innovation (CERI) and a Senior Analyst at the OECD (Paris), presentations by authorities from the convening institutions, panels and a showcase of projects selected within the framework of the FSED. It will also provide the framework for the presentation of the FSED 2024 call for proposals.
